Profile

I work at Sabre as System Integration Engineer. I'm responsible for both capacity planning and finops. My role involves ensuring that the performance and cost is under control, that applications are working in a stable and cost-effective environment. I work with GCP services and functionalities. To support performance tracking and business reporting, I work with ETL solutions, such as BigQuery, Looker and Looker studio.

Experience

SYSTEM INTEGRATION ENGINEER | SABRE | OCTOBER 2024 - NOW

- Capacity Planning within GCP services
- FinOps - cost review and optimization
- Preparing Data for reporting in BigQuery
- Creating performance and business dashboards in Looker and Looker studio
- Data models in LookML
- Conducting periodic FinOps/Capacity presentations

CONFIGURATION MANAGER | APTIV | JANUARY 2023 – SEPTEMBER 2024

- Automated strategy documents that are used company-wide using VBA.
- Created report of key documents used across all projects with Python
- Conducted baseline audits to improve alignment with process, resulting in Jira tickets
- Took responsibility of entire competency in a project, that is then audited

PURCHASING DEPARTMENT ASSISTANT | APTIV | JULY 2021 – DECEMBER 2022

- Updating contracts and contacting with supplier
- Working with multiple departments – purchasing, logistics, finances ect.

Education

BACHELOR'S DEGREE IN ENGINEERING OF CONSTRUCTION MACHINES AND MEANS OF INDUSTRIAL TRANSPORT | FEBRUARY 2021 | UNIVERSITY OF TECHNOLOGY, CRACOW

MASTERS'S DEGREE IN LOGISTICS AND FORWARDING | SEPTEMBER 2022 | UNIVERSITY OF TECHNOLOGY, CRACOW
